Arrowsight Inc. has opened a new, state-of-the-art Network Operations Center for its Remote Video Auditing service in Huntsville, Ala. The 6,200-square-foot facility is the centerpiece of Arrowsight's remote video auditing service. It enables the monitoring of employee operations at critical control points within a processing plant, 24 hours a day. By remotely viewing and reporting back to management, Arrowsight helps improve plant performance, quality, security, biosecurity deterrence and employee safety.
