

**Safety, Surveillance, Readiness —  
on your terms.**

**Private Label  
Video Security Services:**

*Remote Guard Tours (RGT)*

*Remote Video Auditing (RVA)*

*Video Alarm Verification*

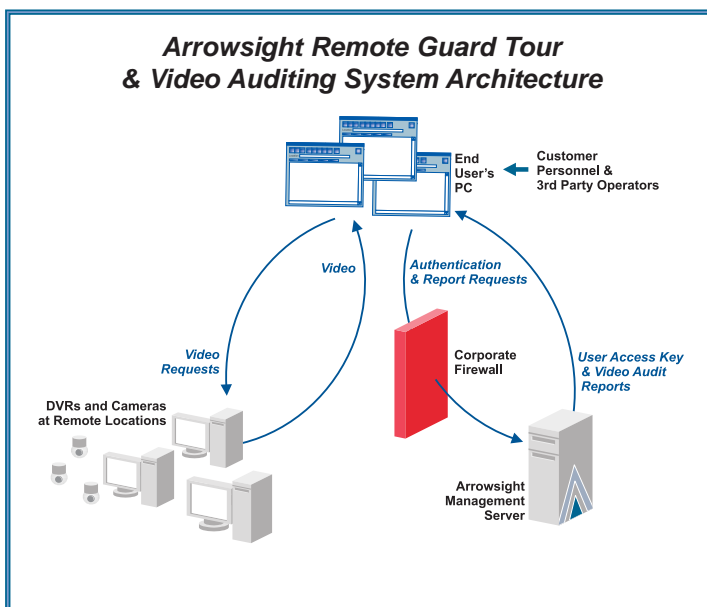

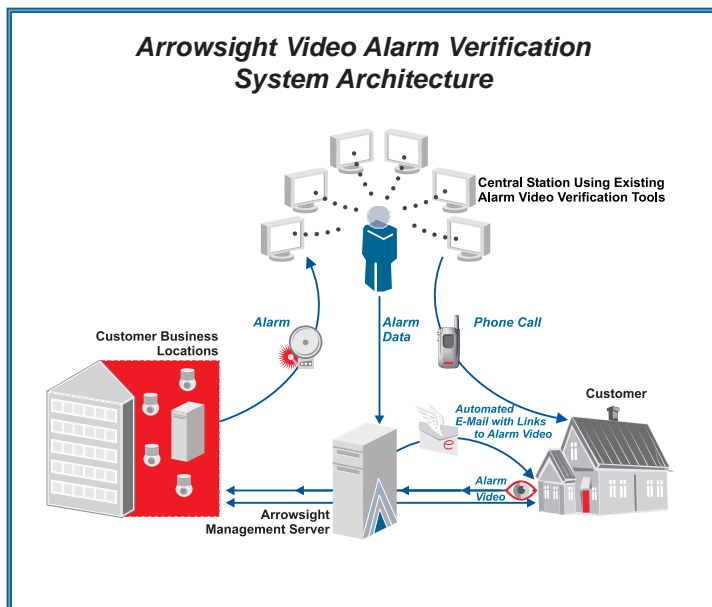

## Leverage Private Label Video Services Technology

The world leader in remote viewing and reporting **Video Services Software**, Arrowsight provides **Private Label** solutions that directly address the need for heightened security and surveillance across manufacturing, retail, storage and transportation facilities. The Arrowsight suite of Video Services is a web-based **software application that includes robust administrative tools that allow users at all levels to fully manage their entire video services enterprise**. Arrowsight gives Security Dealers, Central Stations, Guard Companies, and Private & Public Sector Security Organizations complete control over remote viewing of premises and camera movement, in real time—from anywhere in the world with a secure **Private Label** Internet service.

Our security solutions, including **Remote Guard Tours (RGT)**, **Remote Video Auditing (RVA)** and **Video Alarm Verification**, leverage standard DVR and camera technology. The Arrowsight platform includes auditing tools that track and automatically assemble all examined and scored video. This statistical compliance data, including links to all examined video, are available via electronic scorecard **Video Audit Reports**. These summary compliance reports serve the industry's demand for robust, flexible applications that deliver improved **safety, surveillance and readiness**.

Arrowsight's remote-viewing technologies meet these requirements in ways no other security solution can—and give you a range of benefits no other provider can match.

## Arrowsight Remote Viewing—On Your Terms.

Arrowsight provides a suite of **Private Label** remote viewing services.

### Remote Guard Tours

Our Remote Guard Tours (RGT) Application enhances surveillance by supplementing or replacing round-the-clock physical guard security. 3rd Party Providers and their customers view their entire premises in real-time, with enhanced pan-tilt-zoom capability that provides full camera control and immediate email notification of key events. The daily, weekly or monthly e-mail compliance scorecards, sent by 3rd Party Remote Guards, provide statistical tracking of all remote tours.

### Remote Video Auditing (RVA)

Our RVA service provides 24/7 monitoring of production, retail, manufacturing and transportation facilities. The daily, weekly or monthly e-mail compliance scorecards, sent by trained auditors, assist managers with improving employee efficiency and safety, reducing biosecurity vulnerabilities and eliminating security breaches. These reports include hyperlinks to video of events uncovered by auditors to help increase performance across customer operations. Equally important, RVA gives employees an added sense of security and enables managers to establish training and reward systems.

### Video Alarm Verification

Our Video Alarm Verification application provides instant e-mail links to video of an alarm event and acts as a critical decision-making tool. Security managers can use the video to make the necessary security decisions, and 3rd party service providers can use the information to dispatch local authorities. Customers are able to view the alarm links using the common Arrowsight Video Interface across different DVRs. Weekly reports list all alarm events associated with video links, enabling managers to use report data for making personnel improvements or correcting technical problems.

Arrowsight's **Private Label** services provide a unique **Value Proposition** to numerous security providers.

### GUARD COMPANIES

#### Services:

- Enhance existing manned guard services
- Dramatically improve net margins, while lowering customer costs
- Fully retain complete control of customers via the Arrowsight **Private Label** Program

### SECURITY DEALER/INTEGRATORS

#### Services:

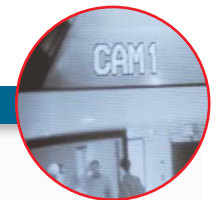

- Develop a robust recurring revenue business from existing customers
- Win hardware business by being able to offer video services as a future option
- Differentiation by offering value added solutions using the Arrowsight video services platform

### ALARM CENTRAL STATIONS

#### Services:

- Expand RMR revenue with video services
- Fully utilize alarm operator staff during downtime
- Attract more dealers & customers by offering expanded services

### PRIVATE & PUBLIC SECTOR SECURITY ORGANIZATIONS

#### Services:

- Self-manage physical infrastructure with Arrowsight commercial grade security ASP tools being used by top security firms
- Fully utilize existing staff and physical security infrastructure
- Utilize Arrowsight platform to enhance physical security manpower

Guard tour video is summarized in formal guard tour reports that are delivered daily, weekly or monthly. Reports provide hyperlinks to video examined by guards. By clicking the hyperlinks you have immediate access to actual video of each incident.

Top line statistical scores for each parking lot that includes a single score summary of all audit procedures.
