

Arrowsight Opens Network Operations Center in Huntsville, Alabama

HUNTSVILLE, Ala. (September 18, 2006) — The 6,200 square foot facility is the centerpiece of Arrowsight's Remote Video Auditing service currently used by safety-sensitive companies in the food, meat and beverage processing sector.

Arrowsight, Inc., the leading developer of remote viewing services and software, recently opened a new, state of the art Network Operations for its Remote Video Auditing service, in Huntsville, Ala. Located adjacent to the Huntsville International Airport, the 6,200 square foot facility is the centerpiece of Arrowsight's Remote Video Auditing service currently used by safety-sensitive companies in the food, meat and beverage processing sector.

The facility enables the monitoring of employee operations at critical control points within a processing plant, 24 hours a day. By remotely viewing and reporting back to management, Arrowsight helps managers improve plant performance, quality, security, biosecurity deterrence, and employee safety.

"The Arrowsight NOC represents a significant opportunity for safety sensitive industries, as well as an important investment in the Huntsville community," said Mark Moshier, Arrowsight Manufacturing Division president. "We expect the Arrowsight NOC to grow steadily over the next 5 years, with several hundred staff being added to serve our clients on a 24/7 basis."

Mark Moshier has 18 years of experience within the Food and Beverage industry, serving in senior level positions at industry leaders such as Tyson Foods, PepsiCo and Ralston Purina. From 2000-2005, he served as Vice President of Operations at Keystone Foods Poultry USA where he managed operations, including plant manufacturing, security, safety, engineering, and government compliance. He was also responsible for large-scale procurement in their fish manufacturing business.

Arrowsight, a Web-based Application Services Provider, is the leading developer of remote viewing services and software. Arrowsight has helped improve practices, compliance and employee morale in safety-sensitive industries, such as food processing, food services and manufacturing. Arrowsight technology is also being used at leading companies including Plumrose USA, Limited Brands and leading McDonald's franchisees.
