

Company Overview

Give Your Business A Performance Advantage.

Arrowsight, a web-based Application Services Provider, is the leading developer of remote viewing services and software. Arrowsight's remote viewing software was originally developed and marketed by its division, Parent-Watch and has since become the remote viewing leader for the childcare community with 10,000 users. Our remote video auditing service transforms video and related data into tools for security, operational and marketing improvements.

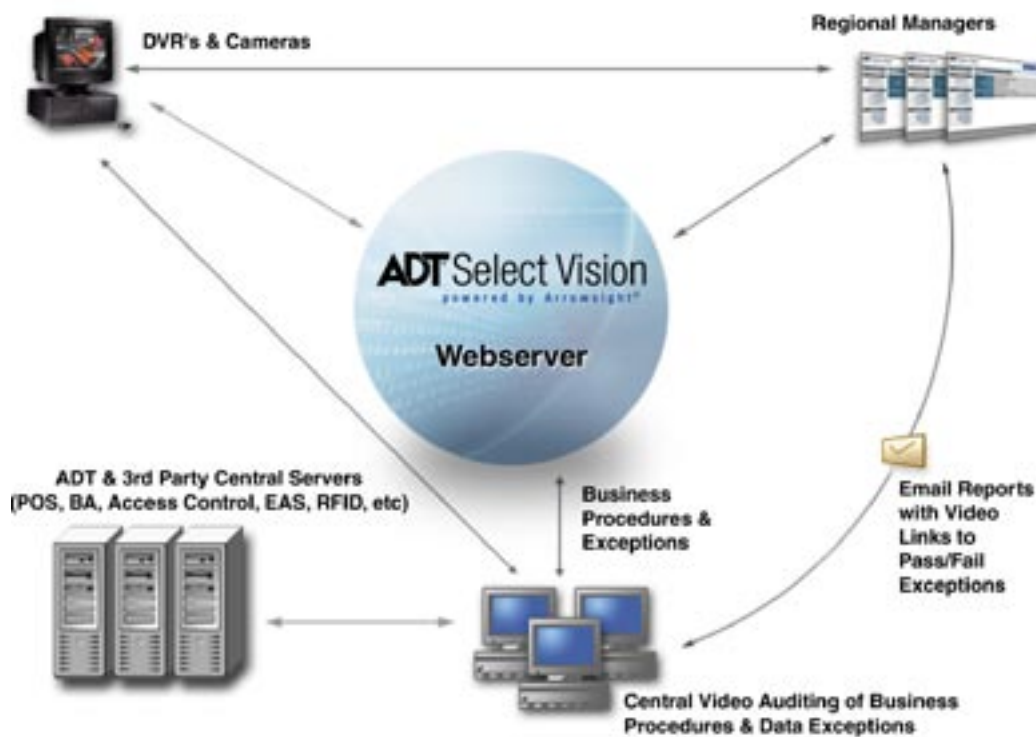

We're dramatically improving business practices across a wide range of industries including retail, Quick Serve, grocery, manufacturing, food processing, military, industrial and Homeland Security environments.

Get More From Your Infrastructure Investments.

Increasing efficiency, boosting productivity and improving profits are priorities for all businesses, but leveraging existing investments is paramount in today's competitive climate. Our software integrates with existing security and monitoring systems, enabling companies to maximize their investments and minimize expenditures.

Better Your Business:

- Increase Efficiency
- Boost Productivity
- Increase Safety & Security
- Leverage Investments
- Increase Profits
- Better Practices

Arrowsight uses the web to bring data collected by security and facility systems to business managers who audit their operations and staff performance.

Tools that Transform Practices - and Improve Processes.

Alone and unmonitored recorded data is worthless. Audited and analyzed, the data produces a bevy of value for businesses. Through Arrowsight's analytics, we deliver daily, weekly and monthly audits and compliance reports. Our reports monitor a myriad of benchmarks and critical control points including compliance, safety, operational efficiency, customer service and inventory shrinkage.

A Powerful Service, Backed by the Powerhouse of Security Services.

The Arrowsight Video Auditing Service is available through ADT Security Services under the ADT Select Vision brand. ADT Security Services is a business unit of Tyco Fire & Security and is the largest provider of electronic security services to nearly six million commercial, government and residential customers throughout the United States.

Isn't it Time You Used Remote Viewing Services to Better Your Business?

McDonald's, Pfizer, Limited Brands, Plumrose USA, Brookfield Farms and Foot Locker are just a few of the companies that are using remote viewing services to better their business. Let us show you how our tools can transform your productivity, profits and overall efficiency.
